Betreff: Ask for a hearing by the French Senate

the French Senate has set up a committee of inquiry which wants to get informations about the work of the RKI face to the coronavirus (http://www.senat.fr/commission/enquete/gestion_de_la_crise_sanitaire.html).

Do you think it could be possible to organize a visio-conference with a member of your institute who can answer somme questions about your action face to the coronavirus on september 8th, at 4 pm ?

Best regards.
