Subject: AW: systematic review of contact tracing interventions - presenting next week

Dear Francisco,

Happy New Year to you, too!

Thanks for the heads up, please save the presentation prior to the meeting in the folder S:\Wissdaten\RKI_nCoV-Lage\1.Lagemanagement\1.3.Besprechungen_TKs\1.Lage_AG\2022-01-13_Lage-AG and confirm preferably the day before or at least 1h prior to the meeting that the presentation is going to take place. This allows colleagues ample of time to include it on the agenda. Thank you.

Best,
Susi

Betreff: systematic review of contact tracing interventions - presenting next week

Dear colleagues,

I hope this email finds you well. First of all, happy new year.

Professor Hanefeld has asked that I present the results from the ZIG2 systematic review of the effectiveness of contact tracing interventions at the Krisenstab meeting on Wednesday of next week. Would that be possible? And if so, could you kindly include this item in the agenda for next week's meeting?

Thank you very much.

Best regards,

Francisco
